

Audit Accounts

There's more to auditing and preparing your accounts than meets the eye! With the right help, advice and quality support, you could have accounts that work to your advantage this year and every year, saving you money today and helping build your business in the future.

Landin Wilcock has been adding value for more than 60 years. With specialist accountants and our own IT company, Quest Computing, we have moved ahead of the times, helping large companies and sole traders to keep one step ahead, control their finances and secure their assets.

As leading independent registered auditors, we offer a fixed fee audit and accounts preparation service. With a proactive, dedicated, hands-on approach, working at your premises or ours, we ensure your audit and accounts are prepared with the minimum of disruption, never leaving you in the dark or missing deadlines. We take the initiative, look at the whole picture and provide workable solutions and practical advice tailored to your needs.

We pride ourselves on the speed, accuracy and quality of our service, offering support and guidance that looks beyond the figures and into the way you deliver, manage and run your business – adding value at every stage. We're dedicated to helping you increase profit and reduce losses, committed to working with you to protect and increase your assets and investments.
