

Managing and growing your business is time-consuming. Every day there are added pressures, deadlines and challenges. So it can be easy for your accounts, their preparation and study, to slip to the bottom of your list. But understanding your accounts - cash flow, expenditure and income - can be the key to running a successful business.

At Landin Wilcock, we can manage your accounts for you. We keep them up to date, monitor progress, prepare summaries monthly or quarterly and take care of the paperwork. But we do so much more. Determined to add value at every stage, we are passionate about helping your business succeed. By studying your accounts and using our knowledge and experience, we can save you money and help keep you ahead of your competition.

Our management consultancy service has a proven track record. Our highly trained accountants are experts in strategic planning, helping small and large businesses to look beyond today and plan for the future. Working with our subsidiary company, Quest Computing, we can also provide cost-effective IT solutions with the emphasis on accounting. The company can supply, install and maintain the very best computers and accounting packages, offering training and significant discounts. With up-to-date knowledge, the latest software and years of hands-on experience, we can ensure you get the right advice and the right solutions for you and your business.
